PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building end-to-end software products, including Educational ERP systems, cross-platform mobile applications, and high-performance web applications. Adept at transforming business requirements into scalable technical solutions with a strong product and project-oriented mindset. Experienced in AI-augmented development, leveraging modern AI tools to accelerate software delivery, improve code quality, and streamline deployment workflows. Passionate about continuous learning and delivering innovative, impactful software solutions.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Python, REST APIs, API Development, JWT Authentication, Authentication & Authorization

Mobile: React Native, Android Studio, iOS, Mobile Application Development, App Store Deployment

Databases: MySQL, Database Design, Query Optimization

Cloud/DevOps: AWS, Railway, DigitalOcean, Docker, Nginx, SSL, Domain Management, CI/CD

Architecture: Multi-Tenant Architecture, System Design, SDLC, Role-Based Access Control (RBAC)

Tools: Git, GitHub, Postman, Figma

AI Tools: ChatGPT, Claude AI, Cursor, GitHub Copilot, Gemini AI, Prompt Engineering

Languages: English, Telugu, Hindi

EXPERIENCE

SmartEdz

Software Engineer

Hyderabad

Dec 2024 – Present

- Engineered and deployed end-to-end Educational ERP solutions from scratch, designing database architectures, backend services, and responsive user interfaces.
- Built and launched cross-platform mobile applications for iOS and Android, managing the complete development lifecycle from implementation to App Store and Google Play Store deployment.
- Leveraged AI-assisted development tools to accelerate software delivery, streamline debugging, improve code quality, and automate documentation workflows.
- Collaborated directly with clients to gather requirements and transform business needs into scalable software solutions with strong product thinking and project management capabilities.
- Managed application deployment, including cloud hosting, server configuration, domain management, SSL implementation, and production maintenance.
- Designed and implemented secure authentication, token-based authorization, and multi-tenant architecture to support scalable and secure enterprise applications.

KEY PROJECTS

Educational ERP Platform (Web, Android & iOS) | *React.js, Node.js, Express.js, MySQL, React Native*

- Designed and developed a comprehensive Educational ERP platform for schools, colleges, and multi-institution groups, integrating modules such as admissions, attendance, academics, examinations, fees, transport, notifications, and user management.
- Built responsive web, Android, and iOS applications with secure API integrations and real-time data synchronization.
- Developed scalable backend services using Node.js, Express.js, and MySQL to support multi-institution operations and high-concurrency usage scenarios.
- Implemented JWT-based authentication, role-based access control (RBAC), and multi-tenant architecture to securely support multiple educational institutions on a single platform.
- Managed the complete product lifecycle, including requirement gathering, system design, deployment, cloud hosting, domain configuration, SSL implementation, and production maintenance.

Business Websites & Custom Web Applications | *React.js, Node.js, Express.js, MySQL*

- Developed and deployed responsive business websites and custom web applications with modern UI/UX and secure backend integrations.
- Collaborated with clients to transform business requirements into production-ready digital solutions and provided post-deployment support and maintenance.

UI/UX Design Projects | *Figma*

- Designed wireframes, user flows, and high-fidelity prototypes for ERP systems, mobile applications, and business projects using Figma.
- Created user-centric interfaces focused on usability, consistency, and responsive design principles.

Aultra Paints Website | *React.js, JavaScript, CSS*

- Developed and deployed a responsive corporate website with modern UI/UX, product showcase pages, and SEO-friendly architecture.
- Implemented reusable React components and optimized performance for an improved user experience.
- Deployed and maintained the production website, ensuring responsiveness, performance optimization, and cross-browser compatibility.

ACHIEVEMENTS

- Independently designed and developed full-stack ERP systems, mobile applications, and business websites from concept to production deployment.
- Successfully delivered software solutions across Web, Android, and iOS platforms.
- Leveraged AI-assisted development workflows to improve productivity and accelerate software delivery.
- Built complete product ecosystems spanning requirement gathering, UI/UX design, full-stack development, deployment, and production maintenance.

EDUCATION

Parul University

Bachelor of Technology in Computer Science and Engineering (Artificial Intelligence) — GPA: 7.25

Gujarat

June 2024

Sri Chaitanya Junior College

Higher Secondary Education (Class XII) — GPA: 9.5

Tirupati, Andhra Pradesh

June 2020

A.P.R. School

Secondary School Certificate (Class X) — GPA: 9.2

Gyarampalli, Andhra Pradesh

April 2018

HOBBIES & INTERESTS

Developing personal software projects, exploring Artificial Intelligence and emerging technologies, creating technical content, designing user interfaces, and continuously learning new tools and frameworks.
